SAFESCAN 155i

FALSE MONEY DETECTOR

COMPACT SECURITY

"Our new Safescan 155i are available in 2 colour shades – a light coloured and a dark coloured version. Besides its great look and compact size, Safescan 155i features six-fold counterfeit detection for Euro and is 100% tested by the European Central Bank. Safescan 155i offers quick and easy checking for 3 currencies: EUR, GBP & CHF. You can insert banknotes randomly in all directions (EUR & GBP). In less than 0.5 second, Safescan 155i checks if the banknote is real and displays the value of the banknote. Its practical adding function will display the total amount of the scanned notes will be shown on the LCD display. An alarm sounds when a suspect note is detected. Its built-in rechargeable battery makes the Safescan 155i easy to use in all retail and service environments, on the road or outdoors. Need to scan other currencies? Are there new banknotes issued? No problem! The Safescan 155i is equipped with an USB port, which facilitates easy currency updates.

- Automatic banknote verification
- Insert in any direction (EUR & GBP)
- "False banknote" alarm
- Verification speed: < 1/2 second
- Shows quantity and totals
- Default currency: Euro's, British Pounds and Swiss Franc
- 100% score on test by the European central Bank
- Six fold counterfeit detection
